GROUPE RAGNI + Hess: A strong partnership for your communities!

Based in France, GROUPE RAGNI develops and produces public lighting solutions and offers connected technologies for all communities. For almost a century, GROUPE RAGNI has created a wide range of reliable and high-performance products with a focus on sustainable development and smart lighting.

Founded in 1927, the family-owned company based in Cagnes-sur-Mer (near Nice) is managed by the fourth generation of the founding family. GROUPE RAGNI operates four production sites in France, one in the United States dedicated to its market, and is active internationally in around 60 countries through a distribution network.

With GROUPE RAGNI, Hess is convinced that, thanks to the company's multi-faceted expertise, the group will become a key partner for local authorities. This alliance positions us as a major European player in the field of public lighting and smart cities - with a common goal: to offer the most intelligent and sustainable solutions on the market.

We look forward to carry on this successful collaboration. We will be happy to keep you informed of Hess' future development within GROUPE RAGNI.

Sincerely,

GROUPE RAGNI

Hess GmbH Licht + Form

The sparkle of a new alliance

GROUPE RAGNI, an industrial flagship and a ambassador of French expertise, is writing a new page in its history. With its RAGNI, NOVEA ENERGIES and SEV® brands renowned for the quality of their solutions, the company is now enriched by the prestigious addition of Hess and Vulkan.

This union is the result of an encounter that has sparked an obvious synergy between creative minds who share the same passion for exceptional public lighting.

Together, we are writing a new page that combines the heritage of Hess with the innovation and diversified expertise of GROUPE RAGNI.

A brilliant synergy

Imagine a harmonious orchestra where each instrument contributes to a unique symphony. That's how we see this union.

These notorious German brands, renowned for the elegance and quality of their products, are now part of a global offer that includes a wide variety of connected and solar lighting solutions, as well as remote management solutions for territories seeking uniqueness, energy efficiency and sustainability.

Sustainable Light, Constant Innovation

The integration of Hess and Vulkan is more than just a business merger. Together, we promise excellence and constant innovation.

More than ever, GROUPE RAGNI is dedicated to creating custom-made, sustainable lighting solutions that transcend our customers' expectations. Whether your project calls for a unique design, maximum energy efficiency, smart lighting control, we can provide you with a personalized offer, perfectly adapted to the characteristics of your environment.

Take part in this new chapter, where passion, creativity and proximity continue to guide our every step.
